

GIFTED EDUCATION SEMINAR PILOT, 2009

Out with the old and in with the new. The Gifted Education Seminar is a 45 hour course of study replacing the former Gifted Education Institute. It will be piloted throughout the State of Illinois in June, July and early August. The Illinois State Board of Education invites classroom teachers to deepen their understanding of how to teach and reach gifted and talented students. The goal of the training, "Educators will be able to create an environment to identify gifted and talented learners, address their diverse needs, and measure student growth in the classroom," will be accomplished through the exploration of topics including perspectives of gifted, knowing the gifted, curriculum models and differentiation.
